To help you decide which class will suit your needs the best we have categorised them into 3 levels:

**Level 1:** This light introductory level is for those new to exercise or who have not done a class of this type before.

**Level 2:** A moderate, more demanding level with more intense exercise and increase in skill level.

**Level 3:** The demands on all aspects of fitness are now high. A hard, energetic class for the regular, fit participant.
